### DETAILED ACTION

1. Claims 1-28, 63-88 are pending.

#### ***Response to Arguments***

2. Applicant's arguments filed 27 August 2007 have been fully considered but they are moot in view of the new grounds of rejection presented in this Office action.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-16, 63-82 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed does not discuss any "second user and second client device external to said network of the remote file source" now being claimed in independent claims 1, 9, 67, 75.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-16, 63-82 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention because it is not clear which user

and device are considered "external to said network of the remote file source" in claims 1, 9, 67, 75.

5. Claims 17-28, 83-88 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention because:

- Claim 17, lines 13, 14, it is not clear what applicant meant by "accepting a message including a file location from the remote client, wherein said message includes a file in said file location as an attachment".

Furthermore, it is not clear what lines 15-19 accomplish

- Claim 23, it is not understood what lines 17-21 accomplish. It seems that the file is already accessible by the remote recipient without any hyperlink inserted in the message since the file has been attached to the message in lines 15, 16
- Claim 83, lines 8-15 it is not clear what is accomplished. Again, it seems that the file is already accessible by the remote recipient because it has been attached to the message in lines 8, 9.

Art rejection is not applied to claims 1-28, 63-88 because the limitations cannot be ascertained.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lev Ran et al (US 7,139,811) teach double-proxy remote data access system.

Lev Ran et al (US2004/0255048) teach virtual file-sharing network.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
